and NSD File No. L-00-72.

Dear FCC:

I am writing to complain about the proposed changes to the Universal Service Fund and requesting that the FCC investigate this matter further before changing the current policy. Your proposed \$1.00 per month charge for all wireless phones will directly impact my ability to retain my wireless service.

I do not think it is fair to charge EVERYBODY \$1.00 dollar regardless of how they use their wireless phone, especially for a low-volume user that relies on wireless service for safety and security, not interstate calls. The current policy is fair, based on interstate usage, and should be left alone. Please do not penalize us. Keep this fair.

I bought a wireless phone for my son..so he can call me when he is done with sporting events..etc and I can come pick him up..It is a safety measure..He uses the phone for no other purpose...In fact...it stays on the charger until he goes to a place where there will be no phone...I do not think this is a fair charge for a customer who is only trying to ensure the safety of their child and not chat...you know a parent would do anything to make certain their child is safe..so why are you trying to take advantage of that by charging for it?

Thank you for your prompt attention to this matter. Please provide a written response indicating the status/resolution of this matter.

Very truly yours,

Kim Avanzo
